Research Interests

My research examines and evaluates mobile health (mHealth) for healthcare delivery in low- and middle-income countries (LMICs). I apply frameworks and methods from human-computer interaction to support mHealth interventions that can integrate into existing health systems. I closely collaborate with health researchers, researchers from LMICs, and Ministries of Health to prioritize the needs of local people and addressing local challenges. I am interested in examining all phases of maturity of mHealth interventions, from pre-prototyping to deployment.

Education

University of Washington (UW)

Ph.D. in Computer Science & Engineering
Advisor: Professor Richard Anderson

Sept 2021 – Aug 2026 (Expected)

Wellesley College

B.A. in Computer Science and Philosophy
Advisor: Professor Orit Shaer
Magna Cum Laude, Phi Beta Kappa, Sigma Xi

Sept 2017 – June 2021

University of Oxford Worcester College

Visiting student in Computer Science and Philosophy

Sept 2019 – Dec 2019

Selected Research Projects

Research methods in **blue**. Programming languages and frameworks are in **orange**.

Strengthening Digital Health Systems for Small and Sick Newborns

Apr 2024 – Present

Research Intern at PATH

Advisors: Linda Taylor, Dr. Kiersten Israel-Ballard, Kimberly Mansen

Developing a digital adaptation kit (DAK) for newborn nutrition, maternal lactation and human milk banking using the WHO's DAK Framework.

Methods and Tools: **Human-Centered Design**, **Literature Review**

Mobile App for Expanding Contraceptive Choice in Kenya

Oct 2023 – Present

Graduate Research Assistant

Advisors: Professor Richard Anderson (UW CSE) & Professor Elizabeth Harrington (UW Dept. of Global Health)

Leading the development of a mobile app for Kenyan adolescent girls and young women to provide contraceptive education and decision support. Directing an app development team of 5 undergraduates.

Methods and Tools: **Human-Centered Design**, **Literature Review**, **Flutter**, **Dart**

USSD Transaction Failures in Nigeria

Sept 2023 – Present

Graduate Research Assistant

Advisor: Professor Richard Anderson (UW CSE)

Designing a longitudinal repeated measures study to examine USSD reliability in Nigeria, in collaboration with the DFS Lab.

Methods and Tools: **Study Design** (ideation, recruitment planning, ethics approval), **Quantitative Methods**

Electronic HIV Data Security and Privacy in Malawi

May 2022 – Present

Graduate Research Assistant

Advisors: Professor Richard Anderson (UW CSE) & Professor Caryl Feldacker (UW Dept. of Global Health)

Leading the investigation of gaps and opportunities in the security of an open-source mobile medical record system used at a HIV care program in Malawi. Developed interview guides with local researchers and conducted interviews and focus group discussions with healthcare professionals, Ministry of Health officials, and HIV clients to illuminate key data security issues. Through discussion with Malawian researchers, we developed policy and practice improvements for data security and privacy.

Methods and Tools: [Study Design](#) (ideation, ethics approval, implementation, publication writing and submission), [Fieldwork](#), [Key Informant Interviews](#), [Focus Group Discussions](#), [Thematic Analysis](#), [ATLAS.ti](#)

Designs for Recording and Sharing Menopause Experiences Across Generations

Jan 2022 – Oct 2023

Graduate Research Assistant

Advisor: Professor James Fogarty (UW CSE)

Proposed designs and guidelines for recording and sharing menopause experiences across generations and within families.

Methods and Tools: [Study Design](#) (ideation, ethics approval, implementation, publication writing and submission), [Semi-Structured Interviews](#), [Co-Design Sessions](#), [Thematic Analysis](#)

Sidewalks and Socio-Demographics

Sept 2021 – Dec 2021

Graduate Research Assistant

Advisor: Professor Jon Froehlich (UW CSE)

Mapped sidewalk presence and quality to geographic regions. Examined correlations between sidewalk characteristics and socio-demographics.

Methods and Tools: [Python](#)

Speech Practice Systems to Improve Self-Perceptions

Apr 2020 – May 2022

Undergraduate Research Assistant

Advisor: Professor Takuji Narumi (University of Tokyo)

Led the investigation of the impact of listening to speech role models and voice manipulation on the self-perception of voice. Designed and executed usability study with 18 participants.

Methods and Tools: [Study Design](#) (ideation, ethics approval, implementation, publication writing and submission), [Semi-Structured Interviews](#), [Usability Study](#), [Mixed-Methods Analysis](#), [Prototyping](#), [HTML/CSS/JavaScript](#), [R](#)

Truck Drivers' Perspectives on Automation

Sept 2020 – July 2021

Undergraduate Research Assistant

Advisor: Professor Orit Shaer (Wellesley College)

Led a project that analyzed the perspective of truck drivers on automation in the trucking industry. Collected Reddit posts written by truck drivers and conducted analysis.

Methods and Tools: [Study Design](#) (ideation, implementation, publication writing and submission), [Thematic Analysis](#), [Python](#)

Developing an Urban Well-Being Index

Jan 2020 – Dec 2020

Undergraduate Research Assistant

Advisor: Dr. Luis Alonso (MIT Media Lab)

Led the formulation of an urban metric that predicted well-being in urban environments.

Methods and Tools: [Study Design](#) (ideation, implementation, publication writing and submission), [Literature Review](#)

Designing a Low-Cost Kit for Ecosystem Monitoring

Feb 2019 – Aug 2019

Undergraduate Research Assistant

Advisor: Dr. Danielle Wood (MIT Media Lab)

Designed and engineered a sensor kit that monitored the health ecosystem in Benin with low-cost sensors, wireless data transmission, and rechargeable solar battery. Mapped vegetation growth of an invasive plant species in Benin to predict future growth.

Methods and Tools: [Arduino](#), [C++](#), [Geographic Information System Mapping \(ArcGIS\)](#), [Python](#)

Grants, Awards, Funding

Horton-Hallowell Fellowship

2024 – 2025

Awarded graduate studies fellowship from Wellesley College Graduate Fellowships.

“Co-Design of a Mobile App to Support Person-Centered Contraceptive Decision Support among Adolescent Girls and Young Women in Kenya in the Pharmacy Setting.”

Jan 2024 – Feb 2025

Received grant from UW's Global Innovation Fund.

Quad Fellowship

2022 – 2023

Selected into the inaugural cohort as a representative from Japan. Awarded fellowship to support graduate studies.

MIT Technology Review's Innovators Under 35 Japan

2022

Awarded for research examining technologies used for healthcare delivery in LMICs.

Funai Overseas Scholarship

2020 – 2023

Awarded Japanese Ph.D. fellowship that covers tuition, insurance, and living expenses for 2 years.

Grace Hopper Celebration 2020 Scholarship

2020

Awarded to attend conference for women in tech.

Japan Student Services Organization (JASSO) Scholarship

2017 – 2021

Awarded Japanese scholarship to pursue undergraduate studies in the U.S. for 4 years.

Grew Bancroft Foundation Scholarship

2017 – 2021

Awarded Japanese scholarship to study at an American liberal arts college for 4 years.

Kanazawa Iwao Memorial Foundation Scholarship

2017

Awarded Japanese scholarship to pursue undergraduate studies in the U.S. for 1 year.

Teaching

Graduate Teaching Assistant, University of Washington

Courses: Human-Computer Interaction (Win 2024), Capstone Software Design to Empower Underserved Populations (Spr 2024)

Undergraduate Teaching Assistant, Wellesley College

Courses: Human-Automation Interaction (Spr 2021), Human-Computer Interaction (Spr 2021), Calculus II (Spr 2018)

Mentorship

Khushi Khandelwal: Senior thesis, Mobile App for Expanding Contraceptive Choice in Kenya

Ariel Fu: Mobile App for Expanding Contraceptive Choice in Kenya

Sandy Cheng: Mobile App for Expanding Contraceptive Choice in Kenya

Shrimayee Narasimhan: Mobile App for Expanding Contraceptive Choice in Kenya

Shobhit Srivastava: Mobile App for Expanding Contraceptive Choice in Kenya

Academic Service

Reviewing

Proceedings of the ACM on Human-Computer Interaction (PACM HCI), CSCW

2023 – Present

ACM CHI Conference on Human Factors in Computing Systems (CHI)

2023 – Present

Organization

UW CSE Prospective Student Committee Co-Chair

2023 – Present

UW Pre-Application Mentorship Service Volunteer

2023 – Present

UW Change Seminar Co-Organizer

2022 – Present

UW ICTD Seminar Co-Organizer

2022 – Present

Conference Volunteering

ICTD 2022 Student Volunteer Chair

2022

ACM COMPASS 2022 Student Volunteer

2022

Automotive UI 2021 Student Volunteer

2021

Volunteering

Parasaiyo Japan, The Philippines

May 2015 – Present

Supporting orphanage in the Philippines in their pursuits for higher education. Organizes charity events in Japan to raise donation funds. Makes annual visits to orphanage.

Chinatown Afterschool Program Mentor Boston, MA, USA

Sept 2017 – May 2018

Assisted with providing afterschool instruction for children living in Boston's Chinatown. Supported learning for third grade students.
